“

FSExp is **the place to be** for **reaching flight simmers**.
We can go to as many gaming conventions as we want
but if we want to talk to majority of the flight sim
community, **this is the only event we ever consider**.

- Tim Gorham, Thrustmaster Marketing Director

In 2023, we partnered with Thrustmaster to host a private event *inside* the Boeing 747 that carried the space shuttle at Space Center Houston!

To maximize visibility, the “Thrustmaster Afterparty” was incorporated in the main schedule, and we held multiple raffles.

The evening featured an entirely private “first flight” with the future of Thrustmaster’s flight sim range, not visible anywhere else. The 100 participants included VIPs, influencers and partners.

Our full-service approach included coordination of transportation, logistics, food and beverage so Thrustmaster could put on a great experience for the participants.
