

Yale SCHOOL OF PUBLIC HEALTH

# WE WANT TO HEAR FROM YOU!

**YOUR VOICE MATTERS**

Operation Fuel, in partnership with Yale and the CT Green Bank, is conducting focus groups to understand the needs of affordable housing residents who rely on home medical devices. We want to understand how to better serve these residents when the power goes down, and what investments are needed to keep residents safe.

## WHO QUALIFIES?

**Multi-family affordable housing residents in Connecticut who rely on a home medical device**

Home medical devices including life-support equipment (such as dialysis machines and ventilators) and technologies for independent living (such as electric wheelchairs, refrigeration for medicine, and stable indoor temperatures)

**\$100 will be provided for participation**

If you are interested in participating, please call **860-243-2345 ext. 3316** or fill out this form:
