

COMMUNITY HEALTH SERVICES

Sickle Cell Disease (SCD) Community Based Support Program

What's Included in Services?

- Individualized goal planning with supportive coaching.
- The CHW will schedule a face-to-face meeting with you, your family and team members of the your choosing to evaluate needs and solutions to address gaps or barriers in service delivery.
- Care planning that includes the development, implementation and support associated with the creation of a plan that supports you through your lifespan.

CareStar will improve the health of clients with SCD by assisting you, along with your families/friends, to obtain the services and supports required to thrive in the community and maintain your optimal health.

Discuss these and other needs with your Community Health Worker today!

What is Community Health Work?

The world of health and wellness is complicated and ever-changing. Community Health Work is a personalized service to help guide you through these otherwise confusing activities, connecting you with the providers and services you can depend on to live your best life. A trained Community Health Worker will serve you and advocate in your best interest.

This program is designed to provide Education, Advocacy, and Support so you are able to live a healthy, productive and self-sufficient life.
