## How it Works

There are different ways to log in to MyServices.

### Existing Members

If you already have an MA Login you use to log in to [www.MAhealthconnector.org](http://www.MAhealthconnector.org) (see image below) or an account with [login.mass.gov](http://login.mass.gov), we recommend using that account information to sign in to MyServices.

### MA Login

As an account holder, you will be redirected to the “Sign In With Your MA Login” screen to enter your MA Login username and password. Once you’re logged in, you will be redirected to the MyServices dashboard.

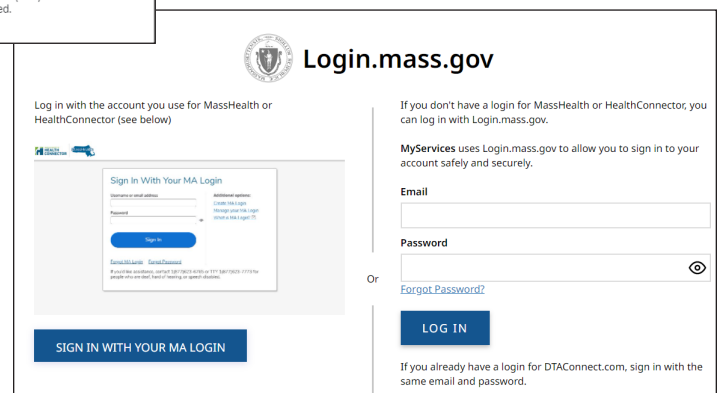

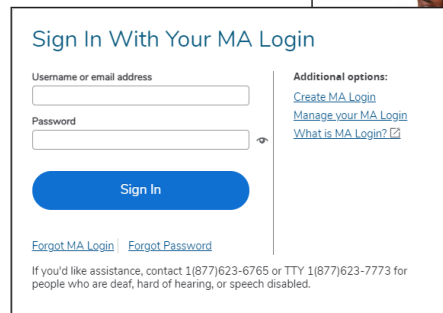

### Login.mass.gov

As an account holder, you will be prompted to enter your email address and password. Once you’re logged in, you will be redirected to the MyServices dashboard.

### New Members

You can sign up for MyServices by clicking “Create an Account” on the login screen. You will be redirected to the [login.mass.gov](http://login.mass.gov) login screen and required to enter a valid email address. To verify your email, we will send you a verification code. You’ll enter that code on the [login.mass.gov](http://login.mass.gov) login screen to begin creating your profile using your first name, last name, and valid email address.

You can create a new profile whether or not you already have a MAhealthconnector or DTACconnect account. If you sign up for services from MassHealth or DTA later, you can link those accounts to MyServices by entering your complete social security number or MassHealth ID in MyServices.

## MyServices Dashboard
