

Very[®]

Seating Details

Very task seating offers personalized comfort for a variety of seated activities. Its patented lumbar support, with asymmetrical control and supportive mesh, enhances comfort to help people stay productive. From responsive comfort to high ergonomic performance, there's a Very chair for everyone, for visual consistency throughout the building.

Very Features

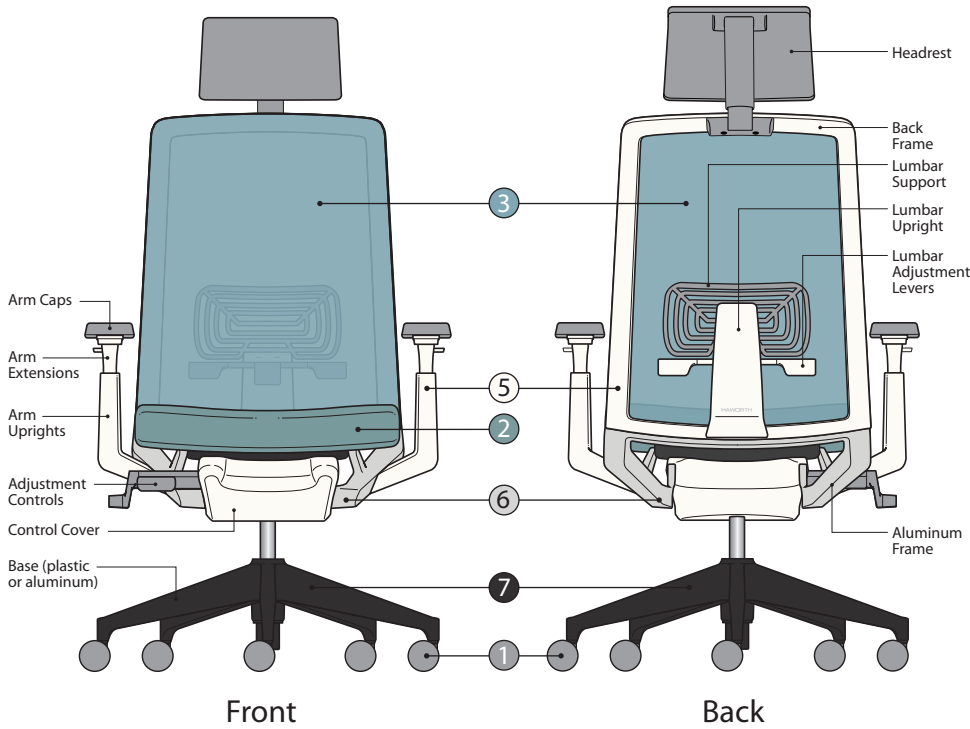

The Very task chair was designed with patented lumbar support, asymmetrical control, and supportive mesh to enhance comfort. Easy-to-use adjustments let each person tune the chair to fit their needs.

*Optional
