

Register your device in advance for using Stuyvesant's Wifi

All freshmen and other students who have unregistered devices must register their device in Talos. Please follow the directions below: Navigate to talos.stuy.edu, click on **Argus**, and follow the instructions below:

1. Click on Create
2. Under Name type your first and last name
3. Enter your device's WiFi Mac Address

For instructions on how to find your WiFi MAC Address see the link below: [How To Find a WiFi MAC Address](#)

Once your request is submitted and approved, you may sign in to the WiFi using SSID: NCPSP and Password 475D783003@RACKID78M475. Requests will be approved as quickly as possible.

The procedure is the same for staff members who wish to register new devices and new staff who wish to register a personal device.
