

# DEPARTMENT OF STATE AND OTHER INTERNATIONAL PROGRAMS

The Department of State, the U.S. Agency for International Development (USAID), and other international programs are responsible for using diplomatic and development tools to advance the interests of the United States. The FY 2022 Budget provides resources to address the critical threats posed by the COVID-19 pandemic public health and economic crises, climate change, and advancing authoritarianism, while reestablishing the United States as a leader on the world stage. The Budget significantly increases contributions to climate initiatives, makes needed investments in global health security, increases economic and security assistance to Central America, reinvigorates the diplomatic and development workforce, and meets the Nation's international obligations, all while supporting efforts to advance racial equity and inclusion in foreign assistance and within foreign affairs agencies.

Diplomatic Programs (DP) is financed by this appropriation, fees for services, and reimbursements from other agencies (including for administrative and other services provided by the Department of State). As in previous years, two-year funding is requested for this account, except for funds requested for Worldwide Security Protection (WSP), which are to remain available until expended. DP is the Department of State's primary operating account and funds a broad range of activities from policy setting, planning and design, to implementation and operations and maintenance. The 2022 request includes base funding for the State Department operations in Iraq, Afghanistan, Pakistan, and other High Threat Posts (HTP).

Funds are requested in the following categories:

**Human Resources.**—This category supports American salaries at overseas and domestic United States diplomatic missions, including Department of State employees carrying out security protection activities. Professional development and training is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional area and language skills needed for the conduct of foreign relations in the Department and abroad. This activity also supports the management, recruitment, and performance evaluation of Foreign and Civil Service employees (including efforts to attract a diverse applicant pool) and locally employed staff.

**Overseas Programs.**—This category provides funding for the operational programs of all the regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for 2022 will support 276 United States embassies, consulates, and other diplomatic posts worldwide. Resources for this activity are used to provide for: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of U.S. foreign policy objectives, including the hosting of and participation in various international conferences, meetings, and other multilateral activities in the United States and abroad. This activity also encompasses medical programs for the Department of State, the Foreign Service and other U.S. Government departments and agencies overseas. Centralized funding for travel and transportation of effects associated with the assignment, transfer, home leave and separation of the Department's personnel and dependents is also included in this activity.

**Diplomatic Policy and Support.**—This category supports the operational programs of the functional bureaus of the Department of State, which includes providing overall policy direction, coordination, and program management among United States missions abroad in pursuit of regional and global foreign policy objectives, including the hosting of various international conferences and meetings in the United States and abroad. Funds to support the work of the Global Engagement Center (GEC) are also included in this category. The GEC's mission is to direct, lead, synchronize, integrate, and coordinate efforts of the Federal Government to recognize, understand, expose, and counter foreign state and foreign non-state propaganda and disinformation efforts aimed at undermining or influencing the policies, security, or stability of the United States, United States allies, and partner nations. Resources also fund the management

of U.S. participation in arms control, nonproliferation, and disarmament negotiations and other verification and compliance activities, in addition to funds otherwise available for such purposes. The information management activity in DP includes resources that are used for the creation, collection, processing, use, storage, and disposition of information required for the formulation and execution of foreign policy and for the conduct of daily business. Components of the information management activity include: telecommunications, information security, information system services, pouch, mail and publishing services for both unclassified and classified information. These activities include domestic and overseas execution of Department programs, such as budget and financial management, contracting and procurement, domestic facilities and vehicles, and rental payments to GSA.

**Security Programs.**—This category provides for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. The salaries paid to Department employees who carry out the security protection function worldwide are included in the Human Resources program activity. This activity identifies resources that are used in meeting security and counterterrorism responsibilities, both foreign and domestic. Programs covered in this activity include but are not limited to: security operations; engineering services, which are related to the technical defense of U.S. Government personnel and establishments abroad against electronic and physical attack; homeland security related activities; protection of Department personnel and foreign dignitaries; and physical security operations.

The Consular and Border Security Programs account (CBSP) uses revenue from consular fees and surcharges to fund programs and activities, consistent with applicable statutory authorities. These fees and surcharges include Machine Readable Visa (MRV) fees, Western Hemisphere Travel Initiative (WHTI) surcharges, Passport Security surcharges, Immigrant Visa Security surcharges, Diversity Visa Lottery fees, H and L Visa Fraud Prevention and Detection Fees, Affidavit of Support fees, use of J Waiver Fees starting in FY 2021, and full use of Expedited Passport Fees (EPF) starting in FY 2022. In FY 2017 and prior years, these fees were credited in the Diplomatic and Consular Programs account as spending authority from offsetting collections. The Consolidated Appropriations Act of FY 2017 enacted a new standalone account to display fee-funded consular programs independent of the larger Diplomatic Programs (formerly Diplomatic and Consular Programs) account that began in FY 2019. This change enables the Department to provide greater transparency and accountability in financial reporting on these fees and surcharges, facilitate budget estimates for these fees and surcharges, and more easily make the information available to users of budget information and other stakeholders.

Section 7024(j)(1) of the general provisions provides a new permanent extension of the Western Hemisphere Travel Initiative Surcharge. Section 7065 provides legislative language expanding the authorities of the Border Crossing Card and Passport Security Surcharge. Finally, Section 7052 provides the ability to use the Fraud Prevention and Detection fees for the costs of providing consular services.

These consular fees and surcharges support an array of activities that are vital to ensuring strong U.S. border security, including routine and emergency services for U.S. citizens overseas; the issuance of secure passports to U.S. citizens at 29 passport facilities and a partner network of more than 8,000 passport acceptance facilities domestically; the adjudication of visa applications; the prevention and detection of fraud involving visas and passports; and the Department's information technology programs. Together with the Department of Homeland Security, the Department of Justice, the Intelligence Community, Department of the Treasury, and the law enforcement community, the Department has built a layered visa and border security screening system that rests on training, technological advances, biometric innovations and expanded data sharing.

This appropriation provides funding to the Bureau of Educational and Cultural Affairs (ECA) for international exchange programs authorized by the Mutual Educational and Cultural Exchange Act of 1961, as amended, to support U.S. foreign, economic, security policy objectives and to advance U.S. influence overseas. These goals are addressed by building increased mutual understanding through international exchange and professional development activities. Beginning in FY 2020, resources in this appropriation also support the conduct of a select group of international information programs of the United States previously reflected in the Diplomatic Programs appropriation (American Spaces, U.S. Speakers and TechCamp programs). Additional programs under this appropriation include:

**Academic Programs.**—Includes the J. William Fulbright Educational Exchange Program, which provides U.S. and foreign students, teachers, scholars, and administrators the opportunity to pursue degrees, teach, and conduct research in foreign and U.S. universities. Academic Programs also include English language programming and educational advising services. English language programs help train and develop foreign teachers of English, send Americans overseas to teach English and train instructors, teach English to disadvantaged students, and provide language learning materials and resources. Educational advising programming supports outreach to foreign students across the world to assist in the process of applying to U.S. universities. Additional academic programs such as the Benjamin A. Gilman International Scholarship Program provide opportunities for American participants with financial needs to study abroad.

**Professional/Cultural Exchanges.**—Includes exchanges linking U.S. and foreign participants in multiple fields directly tied to U.S. foreign policy goals. The International Visitor Leadership Program brings thousands of

foreign leaders to the United States for intensive short-term professional exchanges to meet and confer with their American counterparts, gaining first-hand knowledge about U.S. society, culture and democratic values. Citizen Exchanges Program participants partner with an extensive network of organizations and experts from across the United States to conduct professional fellowships as well as arts, sports, and high school exchange programs focused on current and future leaders.

**Youth Leadership Initiatives.**—Includes programs targeting young private, public, and civil sector leaders in Africa, Southeast Asia, and the Americas.

**Program and Performance.**—Provides resources and opportunities to ECA exchange program alumni to build on participant exchange experience, developing growing and active alumni association networks. Funds also support on-going program performance measurement and independent evaluations.

**Exchanges Support.**—Includes all domestic staff, overseas Regional Language Officers and support costs managed by ECA; as well as government-wide exchanges coordination.

Under the direction of the Secretary of State, the overall mission of the Bureau of Overseas Buildings Operations (OBO) is to provide U.S. diplomatic and consular missions abroad with safe, secure, and functional facilities that support the foreign policy objectives of the United States. Specific

program functions include: providing guidance to posts, the regional bureaus and other foreign affairs agencies on the renovation, construction and operations of facilities; providing expert space and facilities planning; managing and overseeing the design, construction, and renovation of mission facilities; incorporating security features into overseas and domestic facilities; and ensuring the security of facilities during construction or renovation. In addition, OBO is responsible for establishing standards and policies for overseas housing, developing, in conjunction with posts, effective maintenance programs for post facilities, and monitoring and reporting the inventory of maintenance and backlog requirements. OBO also ensures the safety of the building occupants through the development of fire/life safety and accessibility compliance programs.

In 2022, the Department will manage the eighteenth year of the Capital Security Cost Sharing (CSCS) Program. This program has two main goals: accelerating the construction of new safe, secure and functional embassy and consulate compounds, and providing an incentive for all United States Government agencies to right-size their presence overseas through the use of cost-sharing. The \$2.2 billion program is consistent with the Benghazi Accountability Review Board's recommended funding level for the construction of new secure facilities overseas. Funding sources include ESCM appropriations, interagency contributions, and consular fee revenues.

The 2022 request continues the Maintenance Cost Sharing (MCS) Program to provide critically needed renovation, construction and repair of overseas facilities, to provide adequate working conditions for multi-agency staffs, and protect the U.S. taxpayer investment. MCS and CSCS are funded within a combined \$2.2 billion program in FY 2022.

The objective of the Asset Management Program is to obtain the best use of diplomatic and consular properties overseas through sale of surplus or underutilized properties and reinvestment of the proceeds in properties that provide a greater return to the U.S. Government and/or improve the safety of mission personnel. In lieu of appropriated resources, OBO uses asset sales proceeds for long-term capital investment to minimize the growth of U.S. Government leasehold requirements (through property acquisition) or to address a high-priority need for new construction or fit-out of leased space.

This appropriation also provides for capital expenditures necessary to preserve, maintain, repair, and plan for buildings owned or leased by the Department of State overseas.

The current appropriation finances any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. The 2022 permanent appropriation provides a supplemental payment to the fund for disbursements attributable to the Foreign Service Pension System; and unfunded interest along with liability from military service for the Foreign Service Retirement and Disability System. In addition, the appropriation also finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions. The amount of the appropriation is determined by the annual evaluation of the Fund balance derived from current statistical actuarial data, which includes inflationary cost-of-living adjustments.

The Foreign Service National Defined Contributions Fund (FSNDCF) is an after-employment benefit plan for Locally Employed Staff (LE Staff) working for the Department of State and other Foreign Affairs agencies. The purpose of the fund is to accumulate and distribute U.S. Government (USG)-funded contributions for end-of-service benefits for LE Staff in countries where U.S. missions have determined that participation in the local social security system (LSSS) is not in the public interest of the USG. The Department determines which countries are eligible to participate in the fund. Upon separation, payments under this Plan shall be made consistent with the host country law, including any court order affecting payments to participants, unless decided otherwise by the Department.

This fund, which is available without fiscal year limitations and is authorized by sections 13 and 23 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684), finances on a reimbursable basis certain administrative services, such as printing and reproduction, editorial material, motor pool, operations and dispatch agencies operations, inter-agency cooperative administrative support services, acquisition services, information technology support, medical services, aviation services, special issuance passport services, and expenses of carrying out the Foreign Missions Act, including any acquisitions of property under the authority of the Foreign Missions Act.

The International Cooperative Administrative Support Services (ICASS) program was fully implemented in 1998 using the Working Capital Fund. ICASS allows more decision-making and managerial participation by all participating agencies, more equitable cost distribution, and incentives for efficient provision of services. Under ICASS, each agency represented at an overseas post chooses the services it wishes to receive and pays a proportional share of the cost of those services. Working through inter-agency councils at each overseas post, all agencies have a say in determining post administrative budgets and defining service standards, as well as reviewing costs and vendor performance.

The Foreign Service Retirement and Disability Fund (FSRDF) was established in 1924 to provide pensions to retired and disabled members of the Foreign Service. The FSRDF's revenues consist of contributions from active participants and their U.S. Government agency employers; appropriations; and interest on investments. Monthly annuity payments are made to eligible retired employees or their survivors. The FSRDF includes the operations of two separate retirement systems—the Foreign Service Retirement and Disability System (FSRDS) and the Foreign Service Pension System (FSPS). This appropriation provides mandatory funding for the Foreign Service Retirement and Disability Fund (FSRDF) as prescribed in the Foreign Service Act of 1980 as authorized in Section(s) 821 and 822.

This fund is maintained to pay accrued separation liability payments for eligible Foreign Service National (FSN), FSN Personal Service Contractors (PSC), and FSN Personal Service Agreements (PSA) employees of the Department of State in those countries in which such pay is legally authorized. The fund, as authorized by section 151 of Public Law 102-138 (22 U.S.C. 4012a), is maintained by annual government contributions from the Department's Diplomatic Programs (DP) account (including Program Direct, Public Diplomacy and Worldwide Security Protection resources), Consular Affairs (CA) Consular and Border Security Program (CBSP) fees, the International Narcotics Control and Law Enforcement (INCLE) account, and International Cooperative Administrative Support Services (ICASS) working capital fund that includes both State's DP and other agencies shares. Eligible local staff include former United States Agency for International Development (USAID) ICASS employees who were consolidated into the Department. The Department of State funds and manages its own FSNSLTF separate and apart from any separation pay that may be provided by other agencies to non-State Locally Employed Staff (LE Staff).

This appropriation provides the United States' treaty mandated assessments and expenses to 19 international commissions and organizations including three bilateral commissions (the Great Lakes Fisheries Commission, the International Pacific Halibut Commission, and the Pacific Salmon Commission), nine multilateral bodies, two marine science organizations, one whaling commission, the Arctic Council and the Antarctic Treaty Secretariat, as well as funding regional sea turtle and shark conservation, and travel expenses of non-government U.S. commissioners and their advisors. These commissions and organizations coordinate scientific studies of shared fish stocks and other living marine resources and their habitats and establish common management measures to be implemented by member governments based on their results. Many also oversee the allocation of fishing rights to their members. In addition, the Great Lakes Fishery Commission carries out a program to eradicate the invasive, parasitic sea lamprey. The marine science organizations coordinate international research on valuable fisheries, oceanography, and marine ecosystems and the results are publicly disseminated and used to advise member governments on fisheries and marine science policy.

The first phase of the President's Emergency Plan for AIDS Relief (PEPFAR), from 2004 to 2008, was the largest ever global public health initiative by a single country to fight the HIV/AIDS epidemic. Funding was appropriated in the Global HIV/AIDS Initiative account for this purpose through 2007. Beginning in 2008, funds were appropriated in the Global Health and Child Survival (now Global Health Programs) account, and will continue to be requested in that account.

The Global Health Programs account funds health-related foreign assistance for the Department of State (DOS) and the U.S. Agency for International Development (USAID). Global health programs seek to improve health outcomes by increasing impact through strategic integration and coordination; strengthening and leveraging multilateral institutions; encouraging country ownership and investing in country-led plans; building sustainability through health systems strengthening; improving metrics,

monitoring and evaluation; and promoting research, development and innovation.

**Global Health Programs-State.**—The Global Health Programs (GHP-State) account supports the goal of controlling the HIV/AIDS epidemic through the President's Emergency Plan for AIDS Relief (PEPFAR). The 2022 Budget requests \$5,930.0 million in the GHP-State account for HIV programming. PEPFAR is led by the Office of the Global AIDS Coordinator in DOS, which draws upon the expertise and experience of other U.S. government partners such as USAID, the Department of Health and Human Services, the Department of Defense, and the Peace Corps to align resources and expertise in the fight against global AIDS. Programs work through expanded partnerships to build capacity for effective, innovative, country-led, and sustainable services, and to create a supportive and enabling policy environment for combating HIV/AIDS, including as part of the broader USG and country-level health and development approach. In addition, PEPFAR supports implementation of strong monitoring and evaluation systems to set benchmarks for outcomes and programmatic efficiencies through regularly assessed planning and reporting processes to ensure goals are being met. PEPFAR programs support strategic, scientifically sound investments to rapidly scale up core HIV/AIDS prevention, care, and treatment interventions within the context of strengthened health systems, particularly in terms of human resources in nations with severe health worker shortages and lack of service delivery capacity. PEPFAR integrates its efforts with important programs in other areas of global health as well as other areas of development, including the areas of education, gender equity, and economic development. A contribution of \$1,560.0 million to the Global Fund to Fight AIDS, Tuberculosis and Malaria is included in the GHP-State to enable the United States to provide up to \$4.68 billion to the fund for the sixth replenishment, with the United States offering to match \$1 for every \$2 contributed by other donors. \$45 million is requested for a United States contribution to the United Nations Joint Program on HIV/AIDS (UNAIDS) in support of the Sustainable Development Goal 3 to end AIDS by 2030 through strategic direction, normative guidance through WHO, civil society advocacy and technical support. The request also includes \$250 million and the authority for a new international financing facility to support global pandemic preparedness.

**Global Health Programs-USAID.**—The 2022 Budget requests \$3,870.95 million in the GHP-USAID account for a comprehensive and integrated approach to prevent child and maternal deaths, combat infectious disease threats, and control the HIV epidemic. This approach strives to maximize impact and to expand its reach by building upon previous investments made through maternal and child health, nutrition, family planning and reproductive health, vulnerable children, tuberculosis, neglected tropical diseases, global health security, the President's Emergency Plan for AIDS Relief, and the President's Malaria Initiative. This approach will continue to save millions of lives while fostering sustainable health care delivery systems that can address the full range of developing country health needs including preparing for, and responding to, the next global disease outbreak or pandemic. USAID, working in partnership with foreign governments, local private sector and non-governmental organizations, and other public-private partnerships, will build capacity, strengthen health systems, and promote sustainable integrated health care for vulnerable populations. The Budget provides \$290 million to support a multi-year (2020–2023), \$1.16 billion contribution to Gavi, the Vaccine Alliance. It also provides \$300 million for contributions to multilateral organizations leading the global COVID response through the Act-Accelerator platform, and \$90 million to replenish the Emergency Reserve Fund.

*Overseas Assistance.*—The majority of the Migration and Refugee Assistance (MRA) account addresses the protection and assistance needs of refugees, conflict victims, stateless persons, and vulnerable migrants worldwide. Funds primarily support the programs of international organizations, including the United Nations High Commissioner for Refugees (UNHCR), the International Committee of the Red Cross (ICRC), the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), and the International Organization for Migration (IOM), as well as non-governmental organizations (NGOs).

*Humanitarian Migrants to Israel.*—These funds assist humanitarian migrants resettling in Israel.

*U.S. Refugee Admissions.*—MRA funds overseas processing, transportation, and initial placement for refugees and certain other categories of special immigrants resettling in the United States. These activities are carried out primarily by NGO partners and the International Organization for Migration (IOM).

*Administrative Expenses.*—These funds finance the salaries and operating expenses for the Bureau of Population, Refugees, and Migration in Washington, D.C. and overseas. (Note: Funds for the salaries and support costs of the positions dedicated to international population policy and coordination are requested under the Department of State's Diplomatic and Consular Programs appropriation.)

In FY 2022, the MRA account will support ongoing as well as new needs.

The Complex Crises Fund (CCF) account supports programs to prevent or respond to emerging or unforeseen complex crises overseas. USAID deploys CCF when there is an unanticipated and overwhelming urgent need or window of opportunity where a U.S. Government response will help stem the rise of violent conflict and instability or advance the consolidation of peace and democracy. CCF funding allows the U.S. Government to respond to rapidly changing, complex crises that include a combination of humanitarian, political, and security dimensions and contributes to overarching U.S. foreign policy or national security goals.

INCLE programs mitigate security threats posed by all forms of transnational crime, including production and trafficking of narcotics, and strengthen partner countries' criminal justice systems. These

Established by the Millennium Challenge Act of 2003, the Millennium Challenge Corporation (MCC) partners with low and low-middle income countries to reduce poverty through economic growth. MCC provides large grants to developing countries that meet rigorous standards for good governance, from fighting corruption to respecting democratic rights, as evaluated by MCC's scorecard. MCC takes a business-like approach, with bedrock commitments to data, accountability, and evidence-based decision making. Since its inception, MCC has signed 38 compacts and 28 threshold program agreements, totaling an investment of nearly \$13.9 billion dollars. In addition to providing large grants, MCC works with countries to advance policy and institutional reforms to create the enabling conditions for private sector-led growth. MCC's evidence-based approach leads to compacts that drive partner country ownership, including financial accountability and transparent and fair procurement practices, and measurable development impact to ensure that MCC assistance is used responsibly and effectively. In FY 2022, MCC will build on its rigorous, evidence-based model and will focus on three strategic areas: (1) climate change; (2) inclusion and gender; and (3) catalyzing private investment. Focusing on these three areas will enable MCC to expand impact and further strengthen its ability to deliver on its mission to reduce poverty through sustainable and inclusive economic growth.

GLOBAL SECURITY CONTINGENCY FUND—Continued

The Global Security Contingency Fund (GSCF) permits the Department of State and the Department of Defense to combine resources and expertise to address emergent challenges and opportunities. The GSCF can be used to provide military and other security sector assistance to enhance a country's national-level military or other security forces' capabilities to conduct border and maritime security, internal defense, and counterterrorism operations, or to participate in or support military, stability, or peace support operations, consistent with U.S. foreign policy and national security interests. The GSCF can also be used to provide assistance to the justice sector (including law enforcement and prisons), rule of law programs, and stabilization efforts in cases where civilian providers are challenged in their ability to operate. Assistance programs under this account are collaboratively developed by the Department of State and the Department of Defense. The fund allows direct contributions from each Department to be transferred into the fund for implementation by the most appropriate agency in a given situation, be it State, Defense, the U.S. Agency for International Development, or others. No direct funding is requested in 2022.

The Foreign Military Loan Liquidating Account records all cash flows to and from the Government resulting from direct loans obligated and loan guarantees for foreign military financing committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act (FCRA) provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new foreign military financing credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

As required by the Federal Credit Reform Act of 1990, the Military Debt Reduction Financing (MDRF) Account is a non-budgetary financing account that records all cash flows to and from the Government resulting from restructuring foreign military loans. The amounts in this account are a means of financing and are not included in budget totals. It is an account established for the debt relief of certain countries as established by Public Law 103-87, Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1994, Section 11, Special Debt Relief for the Poorest, Most Heavily Indebted Countries. The MDRF buys a portfolio of loans

from the Foreign Military Loan Liquidating Account, thus transferring the loans from the Liquidating Account to the MDRF Account.

**Climate Investment Funds**

The Climate Investment Funds (CIFs), comprised of the Clean Technology Fund (CTF) and the Strategic Climate Fund (SCF), were created in 2008 to integrate concessional climate finance into MDB operations. While the CIFs were designed to sunset once a new United Nations Framework Convention on Climate Change (UNFCCC) fund (i.e. the Green Climate Fund) was created, in 2019 the CIF governing body decided to continue CIF operations due to interest from 48 recipient nations and support from civil society organizations for the CIF's unique and effective climate finance model. The CIFs provide concessional financing to MDB projects or stand-alone projects and have supported investments in clean technology, energy access, land use, sustainable forestry, and climate resilience. As the need for climate finance has grown, donor and recipient governments agree that the CIFs play an important and targeted role to further "green" MDB operations and to incentivize climate investments that are complementary but not duplicative to other climate finance sources.

The CTF aims to reduce the growth of greenhouse gas emissions in developing countries by catalyzing large-scale private and public investments through financing the additional costs of commercially available clean technologies over dirtier, conventional alternatives. By funding the extra cost of the cleaner technology, the CTF incentivizes cleaner projects that leverage development bank financing and attract new investor capital into low-carbon sectors. The CTF leverages the capital bases and country program expertise of the multilateral development banks (MDBs). To receive funding, countries must first be found eligible and identify key high-emissions sectors, particularly in support of accelerating transition away from coal.

The CTF is accepting new contributions in support of its programming, including the newly launched Accelerating Coal Transition (ACT) Investment Program, which the Administration believes could have significant near-term impact and be highly catalytic in supporting developing countries' transitions away from coal. The FY 2022 Budget requests \$300 million for the Clean Technology Fund, \$30 million of which will be in the form of a grant to support technical assistance and the remaining \$270 million will be the subsidy cost of a loan. The loan will act as a financial tool to launch this program to support countries seeking to transition from coal-based energy to clean fuel sources.

## Green Climate Fund

The Green Climate Fund (GCF) is a multilateral fund established in 2010 to foster climate-resilient development and zero-emission investment. The GCF advances its mission by using a range of financial instruments to support projects and programs that promise the greatest impact in reducing greenhouse gas (GHG) emissions and building climate resilience in developing countries. It also seeks to advance its mission by mobilizing private sector capital and fostering stronger policy environments that better address the challenges of a changing climate.

The GCF funds activities across a variety of sectors, including transport; water and other infrastructure; energy generation and efficiency; and land use, including agriculture and forestry. As of March 2021, the GCF has approved 173 projects, using \$8.4 billion in funding and attracting \$21.9 billion in co-financing. Through these investments, the GCF will support development that is resilient and resource-efficient and that minimizes the potential negative impact on citizens' health and well-being. The 2022 Budget includes \$1,250 million for the GCF, of which \$625 million is through the Department of the Treasury and \$625 million is through the Department of State.

## International Bank for Reconstruction and Development

The FY 2022 Budget requests \$206.5 million towards the third of up to six installments under the current International Bank for Reconstruction and Development's (IBRD) capital increase.

IBRD is the arm of the World Bank that provides financing to credit-worthy lower middle and middle-income countries to promote inclusive economic growth and reduce poverty. These countries - home to over 70 percent of the world's poor - rely on the IBRD for financial resources and strategic advice to meet their development needs. Working across a range of sectors, including governance, agriculture, sustainable infrastructure, health and nutrition, and education, the IBRD supports long-term human

and social development needs that private creditors generally do not finance. During its 2020 fiscal year (July 1, 2019 to June 30, 2020), the IBRD approved \$28.5 billion in loans and technical assistance. Latin America and the Caribbean received the largest portion of the IBRD's lending (24 percent), followed by the South Asia region and the Europe and Central Asia region (20 percent each). Since the beginning of the COVID-19 pandemic, IBRD lending has focused on helping countries address the health and economic impacts of the pandemic. In the April 2020 - March 2021 period, approximately 68% of IBRD commitments (\$23.0 billion out of \$33.6 billion total) were for COVID-19 response. IBRD has financed COVID-19 response efforts under four strategic pillars: (1) saving lives by addressing the acute impacts of the pandemic, including financing of vaccines; (2) protecting the poor and vulnerable; (3) ensuring sustainable business growth and job creation; and (4) strengthening policies, institutions, and investments to rebuild better.

The United States is the largest shareholder in the IBRD, with a 15.5 percent share of total voting power, followed by Japan and China. The United States is the only country with veto power over amendments to the Articles of Agreement.

### Global Environment Facility

The FY 2022 Budget requests \$149.3 million for the Global Environment Facility (GEF), in support of GEF programs during the GEF seventh replenishment (GEF-7) period (July 1, 2018 through June 30, 2022), including for a final installment for the GEF-7 replenishment, and of which, \$12.7 million is for unmet commitments to the GEF. The Global Environment Facility (GEF) is one of the largest dedicated funders of projects to improve the global environment. The GEF benefits the U.S. economy and environment by addressing many global environmental problems that affect our domestic health, safety, and prosperity, such as by supporting climate change mitigation, combatting wildlife trafficking, reducing harmful pollution, and conserving fish stocks outside U.S. waters.

### International Finance Corporation

The International Finance Corporation (IFC) is the private sector focused part of the World Bank Group. Established in 1956, it promotes private sector development in developing countries by making loans and equity investments in private sector projects, mobilizing private capital alongside its own resources, and providing advisory and technical assistance services. In its 2020 fiscal year, the IFC committed \$11 billion from its own resources, and mobilized an additional \$10.8 billion from other sources, for 282 projects in 67 countries. Of this, IFC invested \$2.8 billion (25 percent) in the poorest and most fragile countries (those eligible for funding from the World Bank's IDA). By 2030, IFC is aiming to more than triple its own-account investments in the poorest and most fragile countries. IFC made investments across the globe in 2020; the largest recipient regions were Latin America and the Caribbean (28 percent), East Asia and the Pacific (22 percent), Sub-Saharan Africa (20 percent) and Europe and Central Asia (12 percent). The top sectors for IFC investment in 2020 were financial markets (52 percent), infrastructure (13 percent), and agribusiness and forestry (10 percent). The IFC spent \$274 million on advisory services in 2020, with sub-Saharan Africa receiving \$93.2 million (34 percent). No funding is requested for the IFC in 2022.

### International Development Association

The FY 2022 Budget requests \$1,428.0 million for the International Development Association (IDA) in support of IDA programs over the nineteenth replenishment (IDA-19, FY 2021-FY 2023), including towards the second of three installments to IDA-19, and of which \$426.6 million is to eliminate unmet commitments to IDA replenishments.

IDA is the part of the World Bank Group that supports the growth and development of the world's 74 poorest countries. IDA works across a wide range of sectors including education, health, clean water and sanitation, the environment, infrastructure, agriculture, and governance. Because countries receiving IDA financing are too poor to attract sufficient capital to support their significant development needs, they depend on concessional finance—low or no interest loans and grants—to create jobs, build critical infrastructure, improve governance and public service delivery, increase agricultural productivity, increase access to energy, improve job creation and the business environment, and invest in the health and education of future generations. IDA's goal is to help countries reduce poverty and achieve higher levels of growth and institutional capacity. Over time, IDA's support helps countries finance their development needs through domestic revenues and borrowing at non-concessional rates, including through international markets. During the World Bank's 2020 fiscal year (July 1, 2019, to June 30, 2020), IDA supported 305 projects totaling \$30.4 billion, of which, 63 percent (\$19.1 billion) went to countries in Sub-Saharan Africa. Countries in the South Asia region received the second largest amount (\$6.1 billion). Since the beginning of the COVID-19 pandemic, IDA financing has focused on helping countries address the health and economic impacts of the pandemic. In the April 2020 - March 2021 period, nearly one-half of IDA commitments (\$174.8 billion out of \$38 billion total) were for COVID-19 response. IDA has financed COVID-19 response efforts under four strategic pillars: (1) saving lives by addressing the acute impacts of the pandemic, including financing of vaccines; (2) protecting the poor and vulnerable; (3) ensuring sustainable business growth and job creation; and (4) strengthening policies, institutions, and investments to rebuild better.

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION—Continued reforms under the Heavily Indebted Poor Countries (HIPC) Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with MDRI, donors compensate IDA for the cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. IDA calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Each donor's commitments to MDRI at IDA must be met within the three-year replenishment period to avoid a negative impact on IDA's financial capacity. The U.S. share of the cost of MDRI under IDA-19 (FY 2021-FY 2023) is \$878.8 million. No funding is requested for IDA MDRI in 2022.

## Inter-American Development Bank

The Inter-American Development Bank (IDB) is the largest source of development financing for 26 countries in Latin America and the Caribbean, a strategically significant and economically important region for the United States where roughly 144 million people live in poverty. The IDB works in a range of sectors and commits roughly half (51 percent) of its funding to support fiscal sustainability, competitiveness, and access to credit. The other half is split between social sector programs (36 percent), and infrastructure and the environment (14 percent). The United States is the largest shareholder in the IDB, with 30 percent of total shareholding, enabling the United States to wield significant influence over major decisions about the direction of the IDB. No new funding is requested for the IDB in 2022.

## Inter-American Investment Corporation (IDB Invest)

The Inter-American Investment Corporation (IIC), colloquially known as IDB Invest, a member of the Inter-American Development Bank Group established in 1984, promotes development of the private sector in Latin

America and the Caribbean. It is a legally autonomous entity whose resources and management are separate from those of the IDB itself. In 2017, the IIC implemented organizational and operational reforms stemming from the 2016 consolidation of the IDB's private sector financing activities into the IIC. As a result of this consolidation, all of the IDB Group's private sector lending activities, including small- and medium-sized enterprises and financing for private infrastructure and corporate entities (with the exception of small-scale innovation focused work being done by IDB lab), are now funded by IDB Invest. No funding is requested for the IIC in 2022.

## Asian Development Bank

The Asian Development Bank (AsDB) promotes broad-based sustainable economic growth and development, poverty alleviation, and regional co-operation and integration in the Asia-Pacific region. It has two main financing windows: 1) the Asian Development Bank's Ordinary Capital Resources (OCR), which provides "hard loans" at market-linked rates and "soft loans" to eligible countries at concessional rates; and 2) the Asian Development Fund (AsDF), which provides grants to the region's poorest countries that are at moderate or high risk of debt distress. Prior to January 2017, when AsDF's equity and lending operations were merged with AsDB's OCR, the AsDF also provided concessional loans.

The AsDB provides long-term loans at market-based rates to 22 middle-income Asian countries that lack the resources to finance their national economies and build critical infrastructure. AsDB also supports private sector development with technical assistance, loans, guarantees, and direct equity investments in viable private sector projects with strong development impacts. In 2020, AsDB committed \$31.6 billion for projects and mobilized another \$16.4 billion in co-financing from official and commercial sources. Through its lending, AsDB supports the construction of critical infrastructure, the expansion of private enterprise, and sustainable economic growth. Typically, the majority of AsDB assistance is for investments in energy, transportation, agriculture and natural resources, public sector management,

water supply, municipal infrastructure, finance, and education, but in 2020, the AsDB directed just over half of its financing toward addressing the impact of the COVID-19 pandemic. AsDB is financed through capital contributions from donors, income earned on its loan and investment portfolios, and bond issuances. No funding is requested for AsDB in 2022.

#### Asian Development Fund

The FY 2022 Budget requests \$53.3 million in support of Asian Development Fund (AsDF) programs over the twelfth replenishment (AsDF-13; FY 2022 - FY 2025), including towards the first of four installments to AsDF-13, and of which, \$9.7 million is for unmet commitments to the AsDF.

AsDF currently provides grants to 17 of the poorest countries in Asia and the Pacific that face moderate or high risk of debt distress, including Afghanistan. It focuses on supporting inclusive, sustainable economic growth, as well as regional cooperation and integration. AsDF projects support water, energy, transportation, financial sector deepening, agriculture, and health, and in 2020, AsDF focused considerable funding on COVID-19 response. AsDF also invests in cross-cutting activities, such as connecting entrepreneurial training with financing for small and medium-sized enterprises. In 2020, AsDF committed \$1.1 billion in grants for AsDF-eligible countries, of which \$395.0 million was targeted at COVID-19 response. As a result of the merger of AsDF's lending assets into AsDB's OCR on January 1, 2017, AsDF now provides only grants. In recent years, the United States has focused attention within AsDF on countries where support aligns with U.S. strategic interests, such as Afghanistan and the Pacific Island Countries.

The African Development Bank Group comprises: 1) the African Development Bank (AfDB), which lends at market-linked rates to middle-income African countries and Africa's private-sector; and 2) the African Development Fund (AfDF), which provides grants and concessional loans to the poorest African countries. The AfDF account includes a portion of the U.S. commitment to the Multilateral Debt Relief Initiative (MDRI).

#### African Development Bank

The FY 2022 Budget requests \$54.6 million for the second of eight equal installments for the AfDB's seventh general capital increase. The AfDB provides public sector financing at market-linked rates to 20 middle-income African countries, and provides loans, equity investments, lines of credit, and guarantees to support private sector investments in all 54 African member countries. The AfDB approved \$3.6 billion in loans in 2020. Unlike other years, 2020 lending activities focused on helping countries provide effective public health and economic recovery responses through COVID-19 Response Facility operations, which constituted 72 percent of loans. These loans have supported activities such as increasing testing capacity and PPE stocks, social protection projects with emphasis on preserving jobs and food access, and country-specific reforms to enhance competitiveness for post-COVID-19 economic recovery. As a result of addressing this need, only 16 percent of AfDB operations supported private sector activity. Other key lending areas included energy and transportation infrastructure, agriculture, and governance. The United States is the largest non-regional shareholder of the AfDB, with 6.4 percent of total shareholding, and the second-largest shareholder after Nigeria.

#### African Development Fund

The FY 2022 Budget requests \$211.3 million in support of AfDF programs over the fifteenth replenishment (AfDF-15; FY 2021-FY 2023), including towards the second of three installments to AfDF-15, and of which, \$40.0 million is for unmet commitments to AfDF replenishments.

The AfDF is the AfDB Group's concessional lending window, and traditionally one of the largest official financiers of infrastructure in Sub-Saharan Africa, providing grants and highly concessional loans to the poorest countries in Africa. Some AfDF recipient countries are becoming new, emerging markets and growing U.S. trading partners. Other AfDF recipient countries, however, remain trapped in fragility, conflict, and poverty. Most AfDF countries are highly vulnerable to both internal and external shocks. In 2020, the AfDF provided approximately \$2 billion in financing, technical assistance, and capacity-building activities to the 37 eligible countries, 71 percent of which was delivered through the COVID-19 Response Facility. The AfDF also sets aside special funding for regional projects and fragile and transitioning states. In total, approximately half of its resources continue to be directed to fragile states.

#### Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the AfDB. Countries receive MDRI benefits after completing the reforms under the HIPC Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with the MDRI donors compensate AfDF for cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. Similar to IDA, AfDF calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Donor commitments must be met within the three-year replenishment period to avoid a negative impact on the AfDF's commitment capacity. The U.S. share of the cost of MDRI under AfDF-15 (FY 2021-

Created in 1990, the European Bank for Reconstruction and Development (EBRD) supports market-oriented economic reform and democratic pluralism, predominately through private-sector lending and investments. Its original field of operation in the countries of Central and Eastern Europe and the former Soviet Union was expanded in 2012 to aid in the transitions of key countries in the Middle East and North Africa. No funding is requested for the EBRD in 2022.

NADB provides funding for projects to benefit communities on both sides of the border. Eligible projects must be located within 100 kilometers (around 62 miles) of the border on the U.S. side and 300 kilometers (around 186 miles) on the Mexican side. NADB provides loans and grants to both private sponsors and to municipalities and public utilities. Under its charter the United States and Mexico contribute equally to NADB's capital. Treasury requests \$43 million for the first of three payments towards the twelfth replenishment of the International Fund for Agricultural Development (IFAD). IFAD was established in 1977 as an international financial institution and specialized U.N. agency focused on promoting rural agricultural development and food security in developing countries. IFAD's mandate is to help rural, small-scale producers and subsistence farmers increase their agricultural productivity, incomes, and access to markets as well as to promote job creation and rural economic growth in developing countries, including conflict-affected and fragile areas. In 2020, IFAD approved \$822 million in new projects and grants. IFAD support goes primarily to the Asia and Pacific region (about 46 percent) and sub-Saharan Africa (about 42 percent). The following sectors accounted for most of IFAD's portfolio in 2020: agriculture and natural resource management (31 percent), market and related infrastructure (16 percent), rural financial services (13 percent), community-driven and human development (15 percent), and support for small and micro enterprises (13 percent).

**International Affairs Technical Assistance Program**

Pursuant to the Office of Technical Assistance's (OTA) authorizing statute, OTA provides technical assistance to facilitate the implementation of policy, management, and administrative reforms in the areas of revenue, budget, government debt, banking and financial institutions, and economic crime-fighting in developing and transitional countries. This assistance supports U.S. foreign policy and national security objectives.

The FY 2022 Budget includes \$38 million to fund full-time resident technical assistance advisors, intermittent advisors, program-related administrative costs, and enhanced program and project monitoring and evaluation. The appropriation will support technical assistance programs in Asia, the Middle East, Africa, Latin America, the Caribbean, and Europe. It will enable the provision of technical assistance to developing and transition countries to strengthen the capacity of finance ministries, central banks, and other government institutions to manage public finances and oversee the financial sector. Technical assistance projects support efficient revenue collection, well-planned and executed budgets, judicious debt management, sound banking systems, and strong controls to combat corruption and economic crimes, including terrorist financing. The appropriation will also support Treasury's work to strengthen the financial underpinnings for infrastructure development. OTA will continue to coordinate its activities with the Department of State, USAID, and other relevant U.S. Government agencies as well as international financial institutions and other bilateral donors when determining where its technical assistance program can have the greatest positive impact.

**Debt Relief and Debt Restructuring**

Debt relief and restructuring can be fundamental to helping countries stabilize their economies, restart economic growth, and alleviate poverty and instability. Restructuring debt, including with principal haircuts, also allows beneficiary countries to increase poverty reduction expenditures in areas such as health, education, and rural development. With strong U.S. leadership and support, the G20 and Paris Club Debt Service Suspension Initiative (DSSI) and the G20 Common Framework for Debt Treatments beyond DSSI (Common Framework) have been central pillars of the international policy response to the COVID-19 pandemic. The DSSI provides official bilateral debt service suspension to low-income countries, allowing them to focus on responding to immediate health, economic, and social spending needs related to COVID-19. Recognizing that many countries may need more comprehensive debt treatment to address unsustainable

debt and heightened liquidity needs, the G20 and Paris Club in November 2020 also endorsed the Common Framework, which aims to facilitate timely and orderly treatments within the context of an IMF program, and fosters fair burden sharing among all official bilateral creditors and comparable treatment from private creditors. Debt relief can also contribute to achieving other U.S. Government policy priorities, such as conservation of forests and coral reefs by enabling eligible countries to redirect debt payments to a local conservation fund. The FY 2022 Budget requests \$67 million for Treasury's Debt Restructuring account to pay for the cost of the United States' bilateral debt restructuring and debt relief funding. Of this, \$52 million is for debt treatments under the DSSI and Common Framework, and \$15 million is debt treatments under the Tropical Forest and Coral Reef Conservation Act.

Prior to 2008, funds were appropriated to the Child Survival and Health Programs account to support activities that address family planning/reproductive health; child survival and maternal health, including activities directed at vulnerable children and the primary causes of morbidity and mortality, polio, micronutrients and iodine deficiency; preventing and treating infectious diseases such as malaria and tuberculosis; and reducing HIV transmission and the impact of the HIV/AIDS pandemic in developing countries. Additional funding for HIV/AIDS was appropriated in the Global HIV/AIDS Initiative account for this purpose through 2007. The purpose of the Assistance for Europe, Eurasia and Central Asia (AEECA) account was to support programs to foster the democratic and economic transitions of the countries of Southeastern Europe and the independent states that emerged from the dissolution of the Soviet Union, as well as related efforts to address social sector reform and combat transnational threats in these countries. From 2013 through 2015, funding for the

programs formerly funded through AEECA were included in the Economic Support Fund (ESF), International Narcotics Control and Law Enforcement (INCLE), and Global Health Programs (GHP) accounts. In 2016, Congress reinstated the AEECA account for those programs funded with ESF and INCLE.

This request includes \$4.7 billion in the International Disaster Assistance (IDA) account, administered by USAID's Bureau for Humanitarian Assistance. The IDA account provides funds to save lives, reduce human suffering, and mitigate and prepare for natural and complex emergencies overseas. Specifically, these funds provide for the management of humanitarian assistance programs, as well as emergency food interventions. Humanitarian relief interventions include, but are not limited to, shelter, emergency health and nutrition, as well as the provision of safe drinking water. Emergency food responses include interventions such as local and regional purchase of food near crises, the provision of U.S. commodities, food vouchers, or cash transfers and complementary activities that support the relief, recovery and resilience of populations affected by food crises. IDA programs target the most vulnerable populations who are affected by disasters and complex crises, including those who are internally displaced and refugees.

The Fund, authorized by section 635(m) of the Foreign Assistance Act of 1961, finances on a reimbursable basis the costs associated with providing administrative support to other agencies under the International Cooperative Administrative Support Services (ICASS) program overseas. Under ICASS, each agency pays a proportional share of the cost of those services they have agreed to receive. Working through inter-agency councils at post, all agencies have a say in determining which services the USAID mission will provide, defining service standards, reviewing costs, and determining funding levels. The Fund is also used for deposit of rebates from the use of Federal credit cards, the deposits then being made available for start-up costs at new ICASS service-provider missions and technical support to missions currently providing services.

233002 DCA—Line of Credit Guarantees .....	1		
233999 Total subsidy budget authority .....	1		

As required by the Federal Credit Reform Act of 1990, this account recorded, for the Development Credit Authority (DCA), the subsidy costs associated with direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program and legacy USAID credit programs. The subsidy amounts are estimated on a net present value basis; the administrative expenses are estimated on a cash basis.

In 2020, per the modernizations and other reforms included in the Better Utilization of Investments Leading to Development Act of 2018, DCA will be consolidated with other development finance functions, such as the Overseas Private Investment Corporation, into the new U.S. International Development Finance Corporation (DFC). All future DCA activities are presented in the DFC accounts.

On October 5, 2018, President Donald J. Trump signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020.

The Overseas Private Investment Corporation (OPIC) encouraged the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its primary noncredit program was political risk insurance against losses due to expropriation, inconvertibility, and damage due to political violence.

There are unresolved issues in the prior year column. There is a variance of \$107M in interest on Federal securities. DFC has submitted a back-dated entry to correct this variance; this entry is related also to 184-22-4483 DFC Corporate Capital Account.

The FY 2022 request for the U.S. Trade and Development Agency (USTDA) of \$79.5 million will strengthen the Agency's ability to help U.S. companies create jobs through the export of U.S. goods and services for priority development projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation activities, pilot projects and reverse trade missions that create sustainable infrastructure and foster economic growth in its partner countries. In carrying out its mission, USTDA prioritizes activities where there is a high likelihood for the export of U.S. goods and services that can match the development needs of the Agency's overseas partners.

On October 5, 2018, President Donald J. Trump signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020. The DFC will mobilize and facilitate the participation of private sector capital and skills in the economic development of less developed countries. This facilitation of private sector investment will have a positive developmental impact through transactions the private sector would not do on its own. All future DFC insurance and equity activities are presented in the DFC Corporate Capital Account.

There are unresolved issues in the prior year column. There is a variance of (\$69M) in interest on Federal Securities. DFC has submitted a back-dated entry to adjust this variance to \$38M. This variance may be due to asymmetry between the treasury securities transactions at Treasury, and the subsequent transfer to DFC. This variance has an effect on DFC's FY20 offsetting collections.

Assistance will support efforts to develop vibrant global markets and in turn support job creation in the US. At its core, the American Jobs Plan is about investing in American competitiveness, strengthening our workforce, rebuilding infrastructure, and leveling the playing field for American workers. In the plan, the President proposes strategic investments in infrastructure, manufacturing, workforce development, the care economy and combatting the effects of climate change at the scale necessary to reach every single community in America.

As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications and cost re-estimates of direct loans or loan guarantees that resulted from obligations or commitments in any year). The subsidy amounts are estimated on a present value basis.

The Peace Corps will provide direct and indirect support to Americans serving as Volunteers in approximately 60 countries worldwide in 2022, including the necessary safety and security provisions for Volunteers, trainees, and staff. The 2022 Budget supports recruitment, screening, and placement of Peace Corps trainees and funds the return to service of Peace Corps Volunteers after the global evacuations of Volunteers in 2020 due to the COVID-19 pandemic. The Volunteers help fill the trained manpower needs of developing countries and encourage self-sustaining development of skilled manpower. The Peace Corps also promotes mutual understanding between the peoples of the developing world and the United States and focuses the attention of the American people on the benefits of community service. Peace Corps Volunteers work primarily in the areas of agriculture, community economic development, education, environment, health and HIV/AIDS, and youth in development.

The Peace Corps Office of Inspector General provides independent oversight in accordance with the Inspector General Act of 1978, as amended. Through audits, evaluations and investigations the office prevents and detects waste, fraud, abuse and mismanagement; provides advice and assistance to agency management; and promotes efficiency, effectiveness and economy in agency programs and operations.

This account transfers funds to the operating expense account for the Peace Corps to finance upward adjustments of recorded obligations because of foreign currency fluctuations. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this account and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Peace Corps to withdraw unobligated balances from the operating expenses account from prior years as long as the authorized limit of \$5 million is not exceeded at the time of the transfer.

The Inter-American Foundation (IAF) invests directly in community-led development across Latin America and the Caribbean to create more prosperous, peaceful, and democratic communities. The agency provides small grants to local leaders, innovators, and entrepreneurs solving their own problems. IAF works to address critical issues in the region and advance the inclusion of historically marginalized populations, including women, youth, Indigenous peoples, African descendants, LGBTQI+, and persons with disabilities, in economic and civic life. The IAF's deep ties and half century of expertise working with civil society complement the efforts of other U.S. foreign assistance agencies and advance the strategic and security interests of the United States.

The United States African Development Foundation (USADF) is a Federally funded public corporation that promotes economic development among marginalized populations in Sub-Saharan Africa. The agency provides small grants to increase food security, power local communities and enterprises through clean energy solutions, and provide entrepreneurial opportunities and improved income potential for Africa's women and youth. USADF furthers U.S. priorities in these areas to ensure critical development initiatives enacted by Congress, such as the Global Food Security Act, Electrify Africa Act, and the African Growth and Opportunities Act, extend to rural populations.

The United States is a member of the International Monetary Fund (IMF) through its quota subscription to the IMF, denominated in Special Drawing Rights (SDRs). An IMF member's quota subscription determines the maximum amount of financial resources that the member must commit to the IMF. Under reforms to IMF quotas decided in 2010 and implemented by the IMF in early 2016 after Congress passed the necessary legislation, the U.S. quota at the IMF increased by SDR 40,871,800,000 (approximately \$58 billion using the current exchange rate) and is presently SDR 82,994,200,000 (approximately \$115 billion using the current exchange rate). Quotas are the IMF's first line of financial resources and the main metric used by the IMF to determine members' voting shares and access to IMF financing.

The use of U.S. quota resources at the IMF constitutes an exchange of monetary assets and does not result in budget outlays. When the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves. The U.S. reserve position in the IMF is readily available to meet a U.S. balance-of-payments financing need.

See the "Loans to International Monetary Fund" account for additional information about the 2020 IMF agreement.

5114 New Arrangements to Borrow (Increase) .....		39,697	
5116 New Arrangements to Borrow .....	39,697	79,394	79,394

In January 1997, the Executive Board of the IMF approved the creation of the New Arrangements to borrow (NAB), which is a standing arrangement among certain IMF members to supplement the IMF's quota resources as needed to forestall or cope with an impairment of the international monetary system or to deal with an exceptional situation that poses a threat to the stability of the system. The NAB became effective on November 17, 1998. It is now the second line of defense for IMF resources after a prior arrangement, the General Arrangements to Borrow (GAB), lapsed on December 25, 2018. The amounts authorized for the GAB were also authorized to be used for the NAB.

In 2019, the United States joined other key countries and IMF leadership in advancing a package of actions to maintain the overall level of IMF resources in conjunction with reforms to IMF governance and lending. As part of this package, the IMF and NAB participants agreed to double the size of the NAB, while the IMF reduced its bilateral borrowing agreements

by a similar amount. Congress authorized Treasury to double the size of the United States' NAB participation in the 2020 Coronavirus Aid, Relief, and Economic Security (CARES) Act. The new NAB reforms, which include our increased participation, took effect in January 2021 and remains in effect until the end of 2025.

A total of 40 countries and institutions participate in the NAB for a total of SDR 361 billion (about \$515 billion), of which the current U.S. share is approximately SDR 56 billion (about \$80 billion). The NAB is currently not activated, meaning that at present the IMF is relying on quota resources for current financing.

With respect to this account, resources provided by the United States under the NAB constitute an exchange of monetary assets and do not result in any budgetary outlays because such transactions result in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. U.S. claims on the IMF under the NAB are readily available to meet a U.S. balance-of-payments financing need. (See the *Analytical Perspectives* for additional information.) Section 7065 of the 2021 General Provisions in this chapter includes the necessary legislative language to extend and increase the NAB.

**Contributions to IMF Facilities and Trust Funds**

The International Monetary Fund (IMF) maintains several facilities, many in the form of trust funds, to provide assistance to the world's poorest countries. The most significant of these, the Poverty Reduction and Growth Trust (PRGT) is the IMF's concessional lending facility for low-income countries (LICs). Through the PRGT, the IMF makes subsidized loans (currently at zero percent interest) to the world's poorest countries in the context of longer-term economic adjustment programs. During the COVID-19 pandemic crisis, the PRGT has provided essential resources to help LICs, which generally lack reliable access to global capital markets and which are facing acute balance of payment stresses, respond to the pandemic and prevent economic collapse. Since the start of the pandemic, the IMF has lent close to \$110 billion to countries in need. Of this amount, \$9.4 billion in concessional financing to about 50 poor countries came from the PRGT, a fivefold increase in annual lending from the PRGT's pre-pandemic average. A U.S. contribution to the PRGT would particularly benefit the most vulnerable populations in these countries.

The 2022 Budget requests a total of \$102 million to enable the United States to make a meaningful contribution to the IMF through a grant to the PRGT, or other IMF facility, and to cover the subsidy cost of lending from Treasury's Exchange Stabilization Fund to the PRGT or other IMF facility.

The Special Defense Acquisition Fund (SDAF) helps expedite the procurement of defense articles for provision to foreign nations and international organizations. The 2022 request reflects \$900 million in new SDAF obligation authority, to be funded by a combination of offsetting collections and previous SDAF procurements, referred to as SDAF reimbursements. In 2022, offsetting collections will be derived from the FMS sales of stock as well as other receipts consistent with section 51(b) of the Arms Export Control Act. The 2022 request will support advance purchases of high-demand equipment that has long procurement lead times, which is often the main limiting factor in our ability to provide coalition partners with critical equipment to make them operationally effective in a timely manner. Improving the mechanism for supporting U.S. partners is a high priority for both the Departments of State and Defense.

## NITA M. LOWEY MIDDLE EAST PARTNERSHIP FOR PEACE ACT OF 2020

## [SHORT TITLE]

[SEC. 8001. This title may be cited as the "Nita M. Lowey Middle East Partnership for Peace Act of 2020".]

## [FINDINGS]

[SEC. 8002. Congress finds the following:

(1) Economic development in conflict settings has been shown to support stabilization by empowering entrepreneurs, growing the middle class, and mitigating unemployment.

(2) In 2018, unemployment in the Palestinian territories was 32.4 percent. Gross Domestic Product (GDP) growth in the Palestinian territories declined from 2017 to 2019, and it is projected to further decline in 2020.

(3) According to the World Bank Ad Hoc Liaison Committee's April 2019 Economic Monitoring Report, "to achieve sustainable economic growth, in the Palestinian territories, growth and job creation going forward will need to be private sector driven".

(4) According to the 2018 Joint Strategic Plan of the Department of State and the United States Agency for International Development, "assistance can help prevent new recruitment to terrorist organizations, reduce levels of violence, promote legitimate governance structures that strengthen inclusion, and reduce policies that marginalize communities".

(5) Although economic development is an important tool for stabilizing conflict-prone settings and establishing connections between communities, economic development by itself will not lead to lasting peace. People-to-people peace-building programs further advance reconciliation efforts by promoting greater understanding, mutual trust, and cooperation between communities.

(6) While the United States and its international partners continue to support diplomatic and political negotiations between the representatives of the parties to the Israeli-Palestinian conflict, such efforts require broad popular support among the people on the ground to succeed.

(7) Achieving sustainable, high-level agreements for lasting peace in the Middle East must come through, and with the support of, the people who live there, and the United States and its international partners can help the people of the region build popular support for sustainable agreements for lasting peace. ]

## [SENSE OF CONGRESS]

[SEC. 8003. It is the sense of Congress that—

(1) building a viable Palestinian economy is central to the effort to preserve the possibility of a negotiated settlement leading to a sustainable two-state solution with the democratic, Jewish state of Israel and a demilitarized, democratic Palestinian state living side-by-side in peace, security, and mutual recognition;

(2) United States and international support for grassroots, people-to-people efforts aimed at fostering tolerance, and building support for such solution, can help counter extremist propaganda and the growing issue of incitement;

(3) strengthening engagement between Palestinians and Israelis, including through people-to-people peace-building programs can increase the bonds of friendship and understanding;

(4) investing in the development of the Palestinian economy and in joint economic ventures can advance multiple sectors to the benefit of local, regional, and global parties; and

(5) Congress encourages cooperation between Palestinian, American, and Israeli business sectors in order to benefit the Palestinian, American, and Israeli peoples and economies. ]
